Transportation Programming

Subject: 1998 SHOPP Midcycle Revision Amendment

RECOMMENDATION

I recommend that the following 1998 SHOPP Midcycle Revision Amendment be approved:

SHOPP Amendment 98H-41 (Midcycle Revision)

Amends the 1998 State Highway Operation and Protection Program by adding 137 new projects. These projects were funded from reservations in the 1998 SHOPP, project savings and deletion of lower priority projects or projects that are no longer needed. Selection of these projects was based on goals in the approved Ten-Year State Highway System Rehabilitation Plan. The addition of these new projects together with prior amendments that have been approved completes the 1998 SHOPP Midcycle Revision programming process. Midcycle Revision project funding and reservations by program category are shown in Attachment A. A listing of new projects is shown in Attachment B.

Summary of 1998 SHOPP and 1998 SHOPP Midcycle Revision
Programmed Projects and Reservations (\$ in Millions)
Excludes Seismic Retrofit Projects and Federal Emergency Relief Funds

	<u>1998/99</u>	<u>1999/2000</u>	<u>2000/2001</u>	<u>20001/2002</u>	<u>Total</u>
1998 SHOPP	\$619	\$1,012	\$829	\$817	\$3,278*
1998 SHOPP Midcycle Revision	\$737	\$895	\$877	\$841	\$3,350**

* From 1998 SHOPP, EXHIBIT B

** Includes \$62 million carryover from FY 1997-98 and \$10 million budget augmentation for median barriers.

1998 STATE HIGHWAY OPERATION AND PROTECTION PROGRAM (SHOPP)

EXECUTIVE SUMMARY

March 11, 1999

The 1998 State Highway Operation and Protection Program (SHOPP) Midcycle Revision was prepared in accordance with Government Code Section 14526.5, Streets and Highways Code Section 164.6, and the strategies outlined in the Department's Policy for Management of the SHOPP (Exhibit A). The 1998 SHOPP Midcycle Revision uses reservations and project savings from the 1998 SHOPP to complete programming for the four-year period, 1998-99 through 2001-02. The purpose of the SHOPP is to address traffic safety, roadway rehabilitation, roadside rehabilitation, or operations needs on the state highway system.

The 1998 SHOPP Midcycle Revision identifies \$3.3 billion of projects over the four-year period and is consistent with the 1998 Fund Estimate Amendment, approved by the California Transportation Commission (CTC) January 14, 1999.

The state highway system is aging and its use is increasing. Immediate needs are statewide and proposed expenditures are consistent with goals in the approved Ten-Year State Highway System Rehabilitation Plan. Following is a summary of the programmed projects and reservations and a comparison to the Ten-Year State Highway System Rehabilitation Plan.

SHOPP Funding (1998-99 through 2001-02)

	<u>1998 SHOPP*</u> <u>Midcycle Revision</u>	<u>SHOPP</u> <u>Ten-Yr. Plan</u>
Program Categories		
Traffic Safety	\$303	\$267
Roadway Rehabilitation	2383	2,438
Roadside Rehabilitation	146	160
Operations	518	413
	-----	-----
1998 SHOPP Total	\$3,350	\$3,278
Minor Program	370	370
	-----	-----
Total	\$3,720	\$3,648

* Includes \$79 million of reservations. Also includes a \$62 million carry-in from Fiscal Year 1997-98 and \$10 million budget augmentation for median barriers.

Safety continues to be the top priority consistent with the Policy for Management of the SHOPP shown in Exhibit A.

A special emphasis is also being placed on roadway rehabilitation. Within this category there is currently about 12,800 lane miles of pavement rehabilitation needs. During the next four years, the Department plans to correct about 8,400 lane miles. Taking into account that new needs will be identified during this period, it is forecast that at the end of the period there will be about 9,600 lane miles of remaining pavement rehabilitation needs. Another program under roadway rehabilitation is bridge rehabilitation. During this period, it is planned to rehabilitate or replace about 450 bridges.

All new projects have approved Project Study Reports (PSR's) or equivalent documents that identify the scope, cost and delivery schedule.

CALIFORNIA DEPARTMENT OF TRANSPORTATION

1998 STATE HIGHWAY OPERATION AND PROTECTION PROGRAM MIDCYCLE REVISION

The 1998 State Highway Operation and Protection Program (SHOPP) Midcycle Revision has been prepared in accordance with Government Code Section 14526.5, Streets and Highways Code Section 164.6 and the strategies outlined in the Department's Policy for Management of the SHOPP (Exhibit A). The 1998 SHOPP is a four-year program of projects for Fiscal Years 1998-99 through 2001-02.

The 1998 SHOPP Midcycle Revision is the comprehensive update of the 1998 SHOPP called for in the Department's Policy for Management of the SHOPP and covers the same four-year period as the 1998 SHOPP. Reservations in the 1998 SHOPP for Midcycle Revision programming were used to add new projects. The Midcycle Revision also reflects cost, scope and schedule changes that have been approved through the SHOPP amendment process.

PURPOSE

The purpose of the SHOPP Midcycle Revision is to identify a program of projects to preserve and protect the state highway system.

PROGRAM LEVELS

1998 SHOPP funding levels were maintained in the recently approved 1998 State Transportation Fund Estimate Amendment approved by the California Transportation Commission (CTC) January 14, 1999. This funding level is consistent with the Ten-Year State Highway System Rehabilitation Plan that was submitted to the CTC for review and comments and was transmitted to the Governor and the Legislature on May 1, 1998.

The 1998 SHOPP Midcycle Revision defines \$3.3 billion of projects over the four-year SHOPP period. Projects are grouped into four categories; traffic safety, roadway rehabilitation, roadside rehabilitation, and operations. Safety continues to be the top priority, consistent with the Policy for Management of the SHOPP.

A special emphasis is also being placed on roadway rehabilitation. Within this category there are currently about 12,800 lane miles of pavement rehabilitation needs. During the next four years, the Department plans to correct about 8,400 lane miles. Taking into account that new needs will be identified during this period, it is forecast that at the end of the period there will be about 9,600 lane miles of remaining pavement rehabilitation needs. Another program under roadway rehabilitation is bridge rehabilitation. During this period, it is planned to rehabilitate or replace about 450 bridges.

PROGRAMMING POLICIES AND METHODOLOGY

The 1998 SHOPP Midcycle Revision was developed in accordance with the strategies outlined in the Department's Policy of Management of the SHOPP. New projects are programmed in the year the Department estimates that the projects can be delivered. All new projects have a Project Study Report (PSR) or equivalent document identifying the project's scope, estimated cost, and delivery schedule.

A comprehensive review was completed for projects contained in the 1998 SHOPP. The 1998 SHOPP Midcycle Revision reflects required changes for scope, cost and/or delivery dates that have been approved through the SHOPP amendment process. In December 1997, the CTC approved increasing the upper cost limit for minor projects to \$750,000. The 1998 SHOPP Midcycle Revision reflects this new policy. Prior programmed projects that now qualify for the minor program are not included in this new SHOPP program.

1998 SHOPP MIDCYCLE REVISION SUMMARY

The following summary provides the updated number of projects and their value in millions of dollars for 1998 SHOPP projects as amended and new Midcycle Revision projects for the four-year period, 1998-99 through 2001-02. A funding summary of the Midcycle Revision by fiscal year is shown in Exhibit B.

Program Categories	1998 SHOPP as Amended*		New Midcycle Projects		Total**		SHOPP 10-Yr. Plan
	#	\$	#	\$	#	\$	\$
Traffic Safety	62	\$191	39	\$112	101	\$303	\$267
Roadway Rehabilitation	413	2,030	55	331	468	2361	2,438
Roadside Rehabilitation	59	86	30	46	59	132	160
Operations	129	409	13	66	129	475	413
	----	-----	----	-----	----	-----	-----
Total	663	\$2,716	137	\$555	800	\$3,271	\$3,278
Reservations						79	0
						-----	-----
Total						\$3,350	\$3,278

* Includes amendments to the 1998 SHOPP through February 25, 1999 and projects that have been awarded since the 1998 SHOPP was published.

** Includes \$62 million carry in from FY 1997-98 and \$10 million budget augmentation for median barriers.

Note: The program is developed in thousands of dollars and was rounded for this table.

RESERVATIONS

The 1998 SHOPP Midcycle Revision includes reservations of \$79 million over the four-year period. They will be used to program newly identified high priority needs during the four-year period. Details about the reservations are shown in Exhibit B.

LONG-LEAD TIME PROJECTS

The Department has identified 41 future SHOPP projects that involve a complex environmental process and require more than four years lead time for delivery of the construction contract documents. This is a substantial increase over the number and cost of projects in the 1998 SHOPP. The increase is primarily due to taking a longer range look at upcoming projects as part of the development of the Ten-Year State Highway System Rehabilitation Plan and the recognition of the need to start the environmental process prior to programming in many environmentally sensitive areas. These projects are shown in Exhibit F.

1998 SHOPP PROJECTS DELETED

The Department has deleted 29 1998 SHOPP projects. These deletions were caused by scope changes requiring reprogramming of the project; environmental or other issues requiring the projects be transferred to the Long Lead list; or other projects addressing the problem. These deleted projects are shown in Exhibit G.

GEOGRAPHICAL DISTRIBUTION

The Department's selection of projects for inclusion in the SHOPP is based on statewide needs rather than on geographical distribution. Funding for SHOPP projects is not subject to the north/south split or county share requirements of Sections 188 and 188.8 of the Streets and Highways Code. For information purposes, Exhibit C is a 1998 SHOPP Midcycle Revision Summary of the projects programmed in each county by the four program categories. The 1998 SHOPP Midcycle Revision has projects programmed in all counties except Alpine and Sierra.

PROJECT LISTING

Projects included in the 1998 SHOPP Midcycle Revision are shown in Exhibit H. The projects are grouped into the following four categories for each county:

- Traffic Safety (Safety)
- Roadway Rehabilitation (Roadway)
- Roadside Rehabilitation (Roadside)
- Operations

Project support costs are summarized for each Caltrans district in Exhibit E. Many projects are split and combined in the project development process, making it difficult to track individual project support cost. The Midcycle Revision includes projects crossing Metropolitan Planning

Organizations boundaries. Costs for these projects are shown as separate projects in their respective counties to meet Federal Transportation Improvement Plan guidelines.

DESCRIPTION OF EXHIBITS

- Exhibit A Policy for Management of the SHOPP
Department's Policy for Management of the SHOPP.
- Exhibit B 1998 SHOPP Midcycle Revision Funding Summary
Lists programmed projects and fund reservations by Category by fiscal year.
- Exhibit C 1998 SHOPP Midcycle Revision Program Summary By County
Lists the dollars programmed in each county by the four program categories.
- Exhibit D 1998 SHOPP Midcycle Revision Fiscal Year Summary by County
Lists the dollars programmed in each county by fiscal year.
- Exhibit E 1998 SHOPP Midcycle Revision Fiscal Year Summary by District
Lists the dollars programmed in each county by District.
- Exhibit F 1998 SHOPP Midcycle Revision Long-Lead Time Projects
List of projects requiring environmental work prior to programming.
- Exhibit G 1998 SHOPP Projects Deleted by County
List of projects in the 1998 SHOPP that have been deleted.
- Exhibit H 1998 SHOPP Midcycle Revision County Listing of Projects
Listing of individual projects in each county sorted by the four program categories.
The listing for each project indicates the programmed amount for right of way and
construction from the State Highway Account, local contributions and project
support.

May 26, 1998

California Department of Transportation

Policy for Management of the
State Highway Operation and Protection Program (SHOPP)

1. Seismic retrofit projects: Completion of the seismic retrofit program is one of the top priorities for the Department. Proposition 192 provides special funding for the Phase 2 and toll bridge seismic retrofit projects. Since the Proposition 192 funds are dedicated to this special purpose, they are being managed outside of the overall SHOPP program. Every seismic retrofit project will be proposed for the allocation of funds when it is delivered.
2. Traffic safety projects: Every identified traffic safety project will be programmed in the year in which the Department estimates that it can be delivered. Every traffic safety project will be proposed for allocation of funds when it is delivered, even if that is earlier than the year programmed. The SHOPP may include unprogrammed reservations to meet the anticipated needs for traffic safety projects not yet identified. This strategy applies only to those projects meeting the Department's specific criteria for traffic safety projects (i.e., safety index greater than 200, or equivalent safety warrant).
3. Other SHOPP projects: All SHOPP projects other than seismic retrofit or traffic safety projects will be programmed according to rehabilitation need and other program priorities, except that a project will not be programmed earlier than the year in which the Department estimates that it can be delivered.
4. Level of funding: The Ten-Year State Highway System Rehabilitation Plan and the most recently adopted STIP Fund Estimate establish the funds available for SHOPP purposes. Whenever the Department identifies a project cost increase or a new project to add to the SHOPP, it will identify the source of funding for the increase or new project, whether from an unprogrammed SHOPP reservation or from the deletion or decrease in cost of another project or projects.
5. Project cost and scoping: No project will be included in the SHOPP unless the Department has a completed Project Study Report (PSR), Project Study and Scoping Report (PSSR), or equivalent document identifying a specific project scope and its estimated cost and delivery schedule.

6. Review of project programming: The Department will develop its biennial proposed SHOPP in accordance with these strategies. In addition, the Department will conduct a comprehensive review of the SHOPP in accordance with these strategies at least once between approved SHOPP's. This means that the Department may propose to advance, slip, or delete projects included in the prior SHOPP, based on a review of the priorities, estimated costs, and estimated delivery dates of both old projects and new candidate projects.

The objectives of this strategy are:

- o to develop a SHOPP program that addresses the needs identified in the Ten-Year SHOPP Needs Plan;
- o to assure that state resources used for the operation and protection of the state highway system are focused on the highest priority needs;
- o to assure that the SHOPP, consistent with the STIP, reflects a specific project delivery plan and commitment; and
- o to provide goals and incentives for the identification of effective SHOPP projects and for the management of SHOPP project costs and schedules.

Traffic Safety	\$51	\$82	\$70	\$101	\$303	\$267
Roadway Rehabilitation	536	657	605	584	2,383	2,438
Roadside Rehabilitation	27	29	35	55	146	160
Operations	123	127	168	100	518	413
	-----	-----	-----	-----	-----	-----
Total Programmed	\$737	\$895	\$877	\$841	\$3,350	\$3,278

* Includes 1998 SHOPP projects that have been awarded. Excludes projects funded with Federal Emergency Relief (ER) funds and Seismic Retrofit projects.

** Funding is consistent with the 10-Year Plan and the 1998 Fund Estimate after transferring \$23 million per year to the Minor program to compensate for the Minor program limit being increased from \$300,000 to \$750,000.

1998 SHOPP Midcycle Revision
Fund Reservation Descriptions

Traffic Safety

Funds for traffic safety, median barrier, two and three lane roads, and Clean Up the Roadside Environment (CURE) projects. These projects must have a Safety Index of 200 or greater, or meet specific warrants in order to qualify for the Traffic Safety category. No funds are reserved at this time. New projects will be funded from project savings or the deletion of lower priority projects.

Roadway Rehabilitation

Current reservations are for emergency damage correction projects that are not funded with Federal Emergency Relief funds.

Roadside Rehabilitation

Current reservations are for relinquishment of special environmental mitigation sites to agencies which are better prepared to provide for the long-term maintenance responsibilities and maintenance worker safety projects.

Operations

Current reservations are for commercial vehicle enforcement facilities (weigh stations), office facilities code requirements, Americans with Disabilities Act (ADA) improvements, hazardous material cleanup, and \$800,000 per year for Surface Mining and Reclamation Act (SMARA) obligations.
